

Infinite Color+

Delivering more than 1,375 lumens, these USAI engines illuminate interior spaces with white light that can be tuned from 2,000K to 12,000K, enabling a single light source to soothe, stimulate alertness, or follow circadian rhythms. Additionally, it produces a seemingly infinite range of colors for other occasions. Infinite Color+ is paired with recessed square or round downlight, adjustable, or wall-wash fixtures in trim or trimless designs. usallighting.com CIRCLE 223
