## **BeveLED Mini and 2.2 with Turf Ceiling Tiles**

USAI is collaborating with Turf to Pair two of its downlight systems—The 3"-aperture BeveLED Mini and 4.5"-aperture BeveLED 2.2—with The acoustic-surface maker's Port (above) and Urban ceiling tiles.

USAI's patented snap-in mounting system ensures the precise, seamless placement of its trimless luminaires into Turf's factory-pre-cut recycled-PET acoustical tiles.
