A Case for Rewilding

Progress Lighting Captarent LED Mirror

This glass mirror, measuring 36 inches by 30 inches, features an integrated LED lighting system that can illuminate bathrooms, vanities, and powder rooms with a soft, uniform glow. A frosted LED light path follows along the mirror's perimeter, which can be ovalar, rectangular, or rounded. Dimmable options are available. progresslighting.com

Kawneer 8400TL Thermal Windows

Offered in fixed, fixed offset hung replica, single-hung, double-hung, and horizontal sliding configurations, Kawneer's 4-inch-deep architectural windows provide thermal performance and hurricane impact resistance; they can even withstand a collision with a projectile, according to the manufacturer. The 8400TL series windows are available in different anchoring methods, glass infill options, and straight- and bevel-face designs. kawneer.com

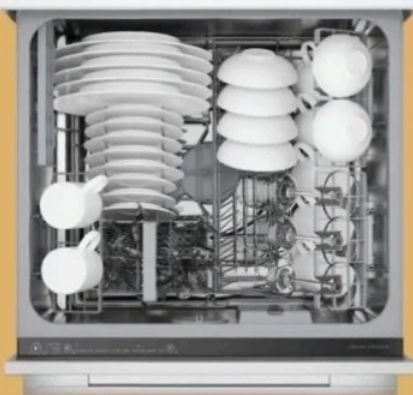

Andersen A-Series Patio Doors

Slim sightlines lend a modern vibe to the latest iteration of Andersen's A-Series patio doors, which bring in maximum natural light. The doors come in standard and custom sizes, as well as 11 exterior colors for extra personalization. andersenwindows.com

Fisher & Paykel Series 11 DishDrawer

Featuring eight wash programs, an incorporated water softener, ergonomic drawer design, a knock-to-pause function, and Wi-Fi compatibility—courtesy of a dedicated smartphone app—the Series 11 DishDrawer serves as an update to the New Zealand brand's iconic dish drawer line. fisherpaykel.com

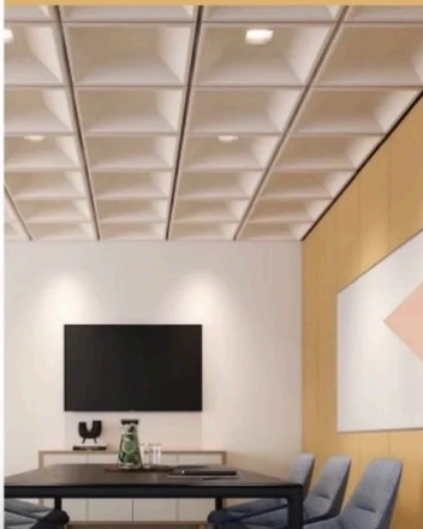

Guardian Glass Resource Hub

Guardian Glass fans, take note: The high-performance-glass manufacturer recently launched this self-service, digital platform, chock-full of product info as well as tools for training, engineering, specifications, and more. guardianglass.com

USAI Lighting x Turf Design BeveLED Mini and 2.2 Lighting With Port and Urban Acoustical Ceiling Tiles

Luminaire brand USAI and acoustics company Turf Design combined overhead lighting with sound-dampening ceiling tiles to create a seamless solution for office and commercial interiors. Available in round or square options, the light fixtures can be paired with Port's concave tiles or Urban's square panels. usailighting.com
