

METROPOLIS

01 FUNGUS
Designed by Kristian Sofus Hansen and Tommy Hyldahl, the materiality and shape of this porcelain table lamp channel a mushroom's biophilic charm.

02 PILAR
This handcrafted lighting collection sprouted from a collaboration between designer Rosie Li and ceramics studio MONDAYS. The forms mimic Constantin Brancusi's famous sculpture *Endless Column*; the crackle glazing resembles a lichen's crusty texture.

03 CUPOLINA
Though it looks shroom inspired, this combination sconce and shelf is actually based on architectural domes. Made of aluminum and acrylic, the LED is also available as a suspension, floor, and table lamp.

04 SURFACE MOUNT CYLINDER
Compact and mighty, this seven-by-five-inch indoor/outdoor LED swivels to cast a multidirectional beam, so it can be used as a downlight, accent, wall washer, or sloped ceiling fixture.
