

LIGHTING & CONTROLS

LittleOnes Micro Doubles

Jan. 18, 2023

Related To: [USAI Lighting](#)

The new LittleOnes Micro Doubles expands the offering of tiny but mighty recessed fixtures—offering two miniature downlights, with diminutive 1.25” apertures, that deliver up to 1600 lumens. The power couple packs a punch while providing the brand’s signature glare control technology and barely-there design appearance. The collection is available in a variety of styles and combinations—Double Downlights, Double Adjustables, Double Wall Wash, or mix-and-match with Downlight and Wall Wash.
