# TrueZero<sup>360</sup>®

SHHUSHED BY QUIET COMFORT™ OPTICS

TrueZero<sup>360</sup> is USAI's newest quiet product providing 360° comfort from every viewing angle in a space. Designed with our unique new recessed lighting aesthetic and delivered with a 5-part patented optical system – Quiet Comfort Optics, this new product family is packed with over 2000 glare-free delivered lumens – providing the perfect balance of performance and comfort with the most seamless ceiling you will ever see.

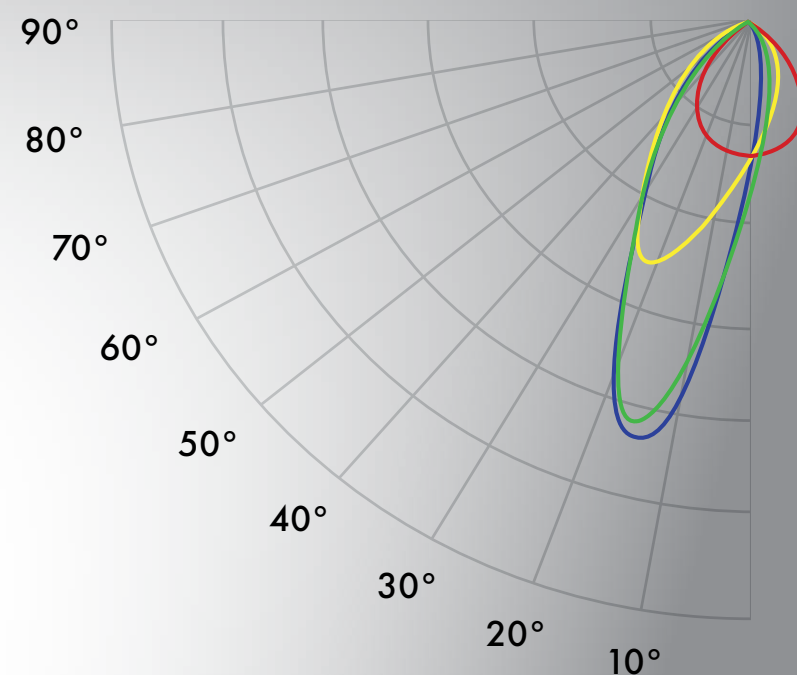

**NEW QUIET AND MODERN AESTHETIC**

**Truly Zero - 00" Regress**  
A new flush glass aesthetic.

**Truly Subtle - 3/8" Regress**  
A discreet regress.

## Choose What You See.

Light Where You Want It.

### Here's what you are seeing...

Light is evenly and fully directed on the wall by USAI's patented reflector system into multiple controlled directions – evenly up high and wide where the wall meets the ceiling, and evenly down low to where the wall meets the floor. The wall is perfectly illuminated with 360° glare-free comfort from all viewing angles and directions— with virtually no backlight spilling into the room.

Eliminates  
backlight  
and scatter

82%  
light on  
the wall

## Designed for Comfort At Every Angle

Incredibly efficient in placing light where it's wanted, USAI's unique and patented reflector and lens system keep the beam focused and framed while preventing unwanted brightness from the light bouncing back into the room. The light source and fixture interior nearly disappear while maintaining a subtle luminance on the lens.

# Quiet + Modern

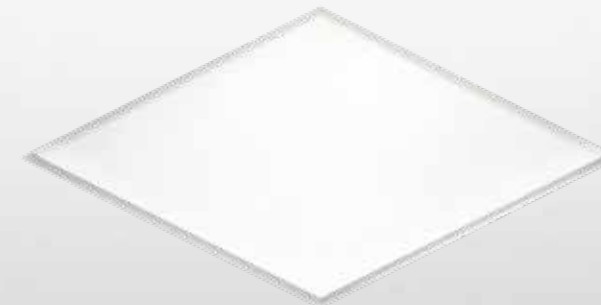

TrueZero<sup>360</sup> Trims offer two new quiet aesthetics for the ceiling – Truly Zero Trimless 00" Regress and Truly Subtle 3/8" Regress. Offered in various finish combinations, find the best fixture to meet the needs of the architecture and intent for each space.

## Truly Zero - Trimless 00" Regress

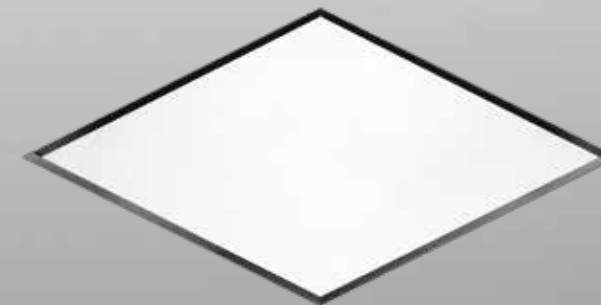

Designed for the ultimate quiet ceiling experience, this trimless fixture's glass aligns with the ceiling plane and appears to float gracefully with one singular identity for downlight, wall wash and adjustable options. Available in trimless and millwork.

### Downlight, Adjustable, Wall Wash

One shared roomside appearance for 00" Regress

Trimless  
Black Edge Detail

## Truly Subtle - 3/8" Regress

Designed with an ultra quiet 3/8" regress to create a separation of light that appears to sit deeper above. The visual result is a sophisticated level of detail in the ceiling with downlight, wall wash and adjustable options. Available in trimmed, trimless and millwork.

# Three Functions, One Singular Identity

**TrueZero<sup>360</sup>** - Truly Zero with 00" regress. Uniquely unified by their singular below-the-ceiling aesthetic, Downlight, Adjustable and Wall Wash provide a smooth, seamless ceiling creating a harmonious presence.

## TrueZero<sup>360</sup> - Truly Zero 00" Regress Fixture Placement

**LEFT:** A series of Wall Wash fixtures evenly illuminates the detailed texture on the left wall.

**BACK:** Adjustables precisely light art work behind the reception area.

**MIDDLE AND RIGHT:** General illumination provided by downlights.
