DOWNLIGHT

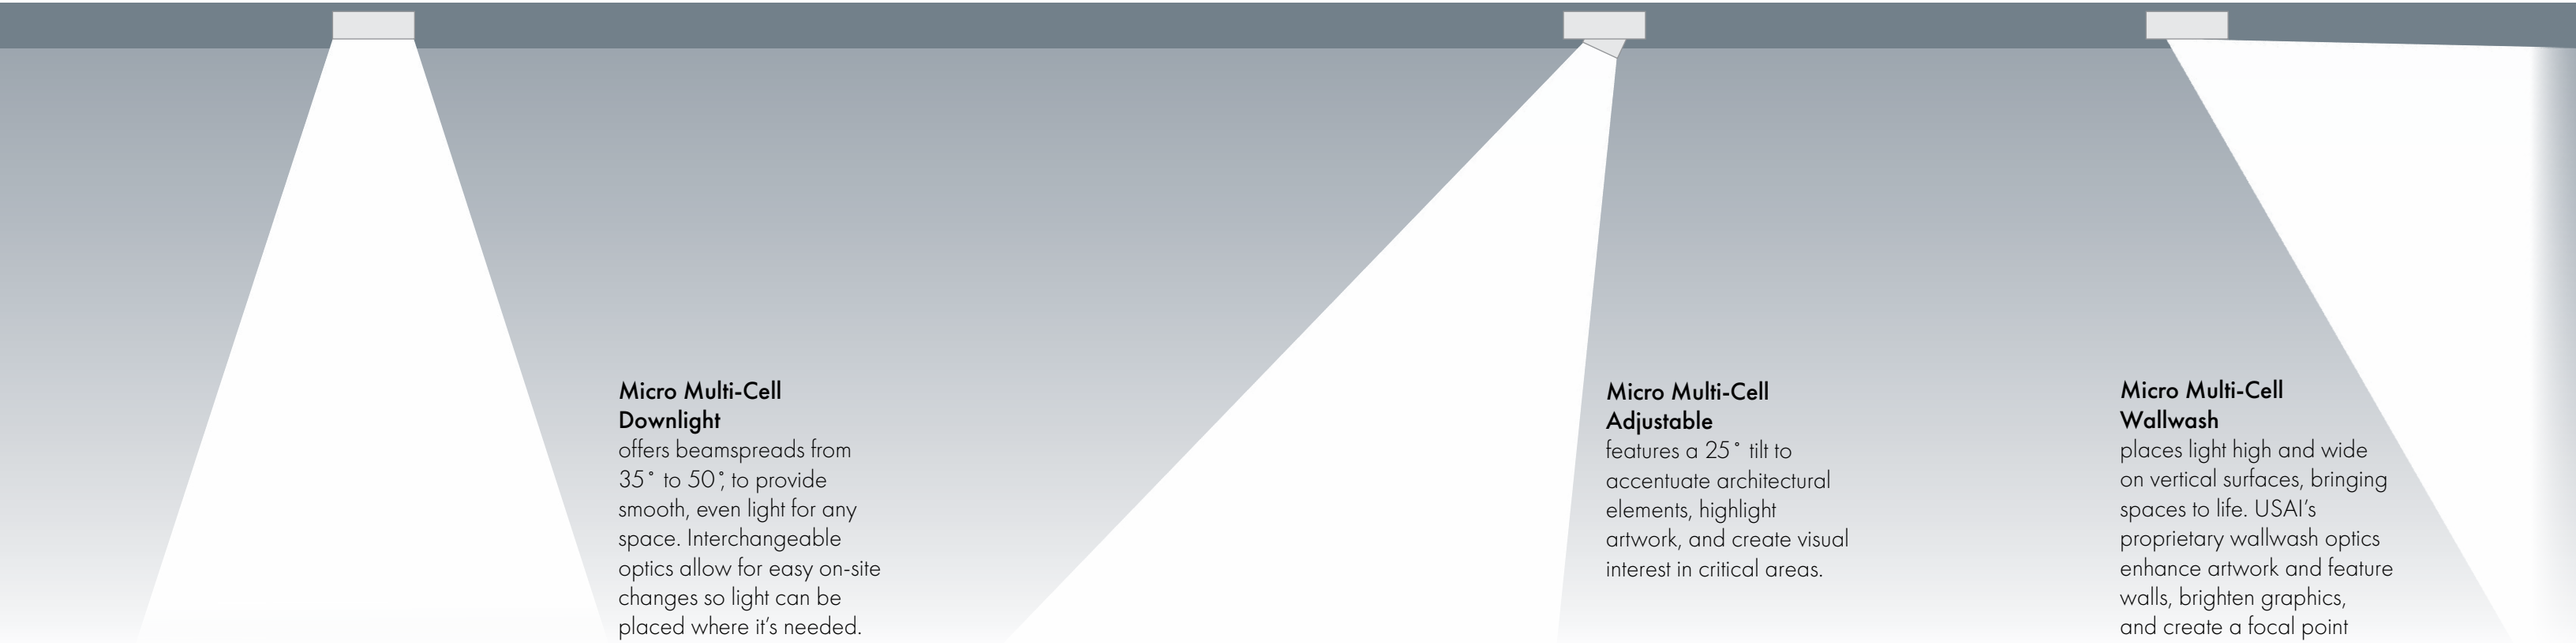

A FULL FAMILY OF OPTIONS

ADJUSTABLE

WALLWASH

Micro Multi-Cell Downlight
offers beamspreads from 35˚ to 50˚, to provide smooth, even light for any space. Interchangeable optics allow for easy on-site changes so light can be placed where it's needed.

Micro Multi-Cell Adjustable
features a 25˚ tilt to accentuate architectural elements, highlight artwork, and create visual interest in critical areas.

Micro Multi-Cell Wallwash
places light high and wide on vertical surfaces, bringing spaces to life. USAI's proprietary wallwash optics enhance artwork and feature walls, brighten graphics, and create a focal point for branding.

THE BEAUTY OF

REMOTE DRIVER OPTION

Micro Multi-Cell's smaller remote driver housing allows closer fixture placement spacing to fit into tight spaces, squeeze into shallow plenums, and achieve unique designs

ACCESS AND CHOICE

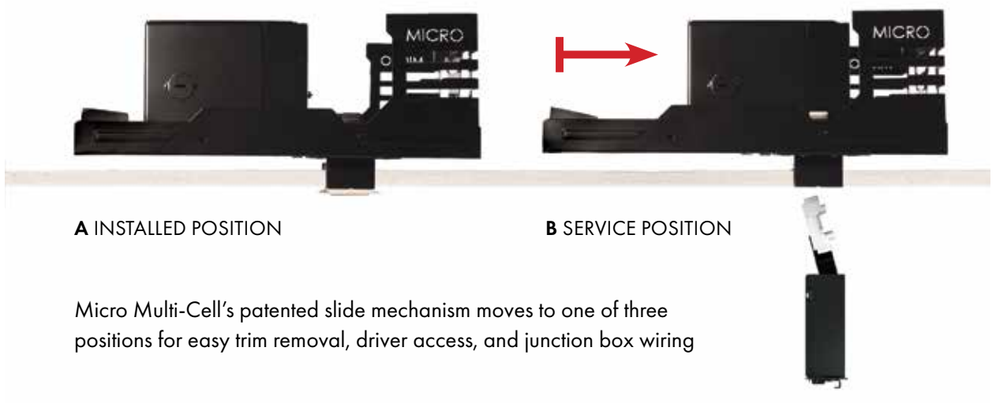

Every project has a distinct set of demands.
With a choice of two installation methods, multiple sizes, interchangeable optics and emergency battery packs, all components are serviceable and field replaceable.
Micro Multi-Cell provides solutions for every situation.

WHAT IS POSSIBLE

INTEGRAL DRIVER OPTION

Micro Multi-Cell's integral driver housing features a patented slide mechanism for user-friendly ease of access and unmatched serviceability

A INSTALLED POSITION **B** SERVICE POSITION

Micro Multi-Cell's patented slide mechanism moves to one of three positions for easy trim removal, driver access, and junction box wiring

IMAGINATION MEETS ITS LIMITS—THE STARS

A NEW FRONTIER OF DESIGN

Micro Multi-Cell allows design freedom to create unique and original layouts and patterns with light.
