USAI Lighting’s Color Select® proprietary tunable white LED technology unlocks the potential of Personalized Lighting®, replacing a variety of sources as well as recreating the feel of natural daylight with one fixture type. Individuals are at their best when they can control the quality, color and quantity of light to suit the types of activities they’re performing. Color Select® tunable white light products enhance the way people live, work and play.

Timing is everything. People, plants and animals all have biological (circadian) rhythms. Support and reinforce your natural circadian rhythms with USAI’s Color Select tunable white light to look, feel and perform your best.

USAI’s Color Select tunable white technology provides beautiful white light that can support circadian rhythms to enhance overall health and wellbeing. Taking advantage of this technology is easy: simply provide two channels of 0-10V dimming control with USAI’s Color Select ColorID wall controller or with industry standard architectural dimmers.
Get Natural

USAI Lighting’s proprietary and patented Color Select tunable white technology can recreate a broad spectrum of white light from 6000K down to 2200K—and everything in between—while independently adjusting intensity from 100% to 0.1% to mimic natural daylight in any environment at any time of day. Available with BeveLED Mini, BeveLED 2.2, BeveLED 5.0, True Zero, BeveLED Cylinders, BeveLED Connect and True Zero Connect.

BeveLED Mini®
Our smallest BeveLED product, BeveLED Mini Color Select offers sophistication and performance with a 3” aperture ideally suited for residential, hospitality and retail applications.

BeveLED® 5.0
The true power of daylight is realized in BeveLED 5.0 Color Select with over 6,000 delivered lumens. Perfect for convention centers, performance halls, theaters, atriums, airports and lobbies.

BeveLED® Cylinders
Power and beauty are both in play with our sleek architectural cylinders. USAI’s Color Select Cylinders offer a beautiful, decorative solution with satin nickel and powder-coat painted finishes while still delivering high performance.

BeveLED® 2.2
Extensive options are available in this platform. Integrate great lighting with ductwork, building infrastructure and electrical with ease, in any plenum space with BeveLED 2.2 Color Select.

True Zero®
True Zero Color Select features a distinctive textured glass lens that aligns perfectly with the ceiling plane, with Conceal and Reveal edge details that subtly accentuate shape and add visual interest to the ceiling.

Connect®
USAI Connect Color Select adds seamlessly integrated, beautifully dimmed light for use with Armstrong Ceiling Systems. Integrated solutions for both super-slim 4” wide TechZone and new Intersection Downlighting ceiling systems are available.
