Get Back to Basics

Using our narrow housing, BeveLED Basic provides a cost-effective architectural solution while delivering top tier LED performance. Available in four classic white color temperatures for downlight, adjustable and wall wash applications, and with our signature industry-leading color consistency, BeveLED Basic can deliver up to 1325 lumens with finesse and still meet budgetary constraints for all projects.

Narrow Housing (shown)
Insulated-Contact Rated/Air Tight and Chicago Plenum housings are also available
