

NANOLED[®] GLOW

The light within is revealed with USAI Lighting's NanoLED Glow. Decorative opal glass cylinder available in round and square profiles produce a gentle ambiance that extends 1-1/2", 3", or 4" below the ceiling plane. Delicate and refined, NanoLED Glow is ideally suited for hospitality, fine dining, and retail - any projects where a beautiful visual element is desired yet useful light is still required. It is obvious that NanoLED Glow's inner beauty shines through. No need to be shy.
